AUGUST 31ST

THOMAS HALL
ROOM 3503

REFRESHMENTS AT
11 AM, TALK WILL
BEGIN AT 11:15

MOVING BEYOND THE GMO CONTROVERSY:
WHAT TO DO WHEN SCIENCE ISN'T ENOUGH?

Dr. Eric Sachs earned his PhD in Genetics at Texas A&M University. In the 36 years he has been employed by the Monsanto Company, he has played key roles in the development, authorization, and commercial application of GM crops. Dr. Sachs uses his knowledge of science and biotechnology, experience and passion to communicate the safety and benefits of GM crops, to demystify the science of biotechnology and to build confidence among policy makers, opinion leaders and the public.
